

Imagine: **Imaging Life** Launch Symposium

Symposium dedicated to advanced microscopy techniques and their biological applications

Imagine: **Imaging life** aims to combine and harness cutting-edge imaging technologies in super-resolution microscopy, electron microscopy and atomic force microscopy to address important biological and biomedical problems

12 -13 January 2017

The Diamond, University of Sheffield

Speakers include:

- Jennifer Lippincott-Schwartz, National Institutes of Health (Keynote speaker)
- Jie Xiao, Johns Hopkins University (SHAMROK keynote, EPSRC sponsored)
- Kishan Dholakia, University of St Andrews
- Peter Rosenthal, The Francis Crick Institute
- Mervyn Miles, University of Bristol
- Siobhan Braybrook, Sainsbury Laboratory, University of Cambridge
- Lucy Collinson, The Francis Crick Institute
- Olivier Hamant, Laboratoire de Reproduction et Développement des Plantes

To register: www.imagine-imaginglife.com/launch-symposium

Delegate rate: Staff: £60, Students: £30
